

- Our upcoming session will run approximately from March 8th through 24th, 2019.
- Students are required to attend all classes. Our program is very intense so for students should plan on dedicating all their time to the school.
- Our program is focused on learning. We do not provide facilities or a schedule for students to make art.
- Each year, we work to provide basic, shared-room housing to students from outside Los Angeles for the duration of the program.
- Mountain School of Arts is free, but students are responsible for transportation to and from Los Angeles, food, and any discretionary spending. If you are applying for a grant, we can submit a letter of support.
- For international applicants: Because the duration is only two weeks, the vast majority of international students are able to come to Los Angeles on a tourist visa.
