

- Applications for MSA^2023 are being accepted from February 27, and will close on May 1st
- Selected students will hear from us by the end of June.
- Our upcoming session will be starting in September 2023
- As the pandemic situation persists/develops, the MSA^ program will adapt in order to ensure that classes can operate safely for students and faculty.
- Students are required to attend all classes. Our program is very intense, so students should be prepared to dedicate all their time to the school.
- Our program is focused on learning. We do not provide facilities or a schedule for students to make art.
- Each year, we work to provide basic, shared-room housing to students from outside Los Angeles for the duration of the program.
- The Mountain School of Arts is free to attend, but students are responsible for transportation to and from Los Angeles, food, and any discretionary spending. If you are applying for funding from grant-making bodies, we can provide a letter of support indicating your successful admission to the program.
- MSA^ is unable to assist on visa matters, but because the program duration is less than 90 days, most international applicants are able to come to Los Angeles on a tourist visa.
